

KEEP YOUR POOL CLEAN, HEALTHY AND ALWAYS READY TO SWIM IN

FOR LESS THAN THE COST OF A COFFEE A DAY

Imagine being able to come home from work and jump straight into the pool without needing to do any extra work first. For many pool owners this sounds like a hopeful dream. That is of course, unless you own a Compass Pool with the Vantage in-floor circulation and cleaning system.

Vantage is a unique water circulation system designed to reduce chemical usage, eliminate cold spots and keep your pool clean of debris without the need for regular hand vacuuming or any other cleaning equipment. Owning a Compass Pool with the Vantage system can set you free to enjoy your pool as you should!

And the best part? For the average compass pool owner, the Vantage system costs less than what it would cost to buy a cup of coffee each day*. That's before you take into consideration that you'll significantly reduce chemical use, you'll never spend any of your own time cleaning your pool and you don't need to purchase any additional pool cleaning equipment like robotic or suction cleaning devices for the entire lifetime of the pool!

*Based on the assumption that you will own your pool for 10 years and excludes the added savings you will make from dramatically reducing chemical demand.

Customers who have opted to include the Vantage system in their pool package become raving fans!

Hi Stu and Jan, three years of great summers with our amazing pool. We love not having to clean it, just enjoy it. So pleased we chose a Compass pool!

"Great experience"

★★★★★ 5 out of 5, reviewed on Sep 13, 2017

Got a x-trainer installed with in floor cleaning, it cleans it self with little for us to do but swim. love it, thankyou compass pools.

Enjoying the new pool that looks after itself

★★★★★ 5 out of 5, reviewed on Sep 06, 2017

My family and I enjoyed our first summer in the Compass Pool and cannot wait to spend more time in the water this summer. Russ, Alex and the Compass team have been great to deal with, personable and ensured the whole process ran smoothly from start to end. The vantage self cleaning system has been a pleasant surprise limiting the time I need to spend maintaining the pool. Overall the pool and landscaping looks great and enhanced our house.

We are a family of six and absolutely love our compass pool. We opted for the in floor cleaning system as we are time poor, and it has been worth every dollar. We don't touch it and use less chemicals as the filtration through the floor circulates the water more superior than other filtration systems. The water temperature is the same throughout due to the infloor system, its like one giant bath. In the 6 years we have had the pool, our family time has improved. Thankyou compass
